

## Dr. Mike Purcell Opens Little Duck's Pediatric Dentistry in Eugene

After spending three years in the Eugene area, Dr. Purcell saw the perfect opportunity to start his own pediatric dentist office. His practice seeks to make a big difference in the community and surrounding areas by helping to make dental care more accessible for those children who need it most. His office shows local pride with University of Oregon-themed murals throughout, making it a fun environment for his patients.

Dr. Purcell has been a pediatric dentist for over 20 years and has a history of volunteering and helping kids in

need. He was a member of the cleft lip and Palate team at Boys Town. He has also traveled on surgical missions to Ecuador and the Philippines. He also volunteered for "Give Kids a Smile Day" with Colorado's Mission of Mercy. He has had special training to work with children, teenagers, and special needs Patients.

Isabelle EFDA, an LCC graduate, is an important part of the dental team and has a passion for working with

### CCDS President's Message

Dr. Matthew Bahen, DMD

Thus ends my favorite time of year! I love everything about the holiday season. I love the traditions and time spent with loved ones. I love the cookies and pies and hot drinks brewing on the stovetop. The lights and warm clothes cutting through the winter darkness. I even enjoy the end of the year craziness with insurance maximizing and trying to coordinate the last day of crown preps before the lab closes for the break.

2025 has arrived and comes with an assessment of what I'd like to accomplish this year. I hope to find a successful balance between time spent at the office and time spent away. I know this is the same struggle that most of us are experiencing and I would love to hear from any of the other dental professionals in our area for tips to accomplishing this balance.

Now that our dental society encompasses a much larger geographical area, I hope to see more people at our events and help keep this professional group thriving.

Have a good year!

Dr. Speedy Bahen

**Executive Director Message**

We have a lot of business partners that are supporting our CE Events this year. We appreciate the strong support from Columbia Healthcare Banking. In addition to being our exclusive banking partner, their support helps provide funding for all of our CE events and our Fall and Spring Socials. We also appreciate the dedication and continued support of Sittner and Nelson, that also sponsor our CE classes. This year GC, Nobel Biocare, and Unbreakable Bonds are bringing in speakers for a few of our classes. This is our third year of our Business Associate Membership. Our 2025 Business Associate Members include Omni Practice Group, Assured Dental Labs, Unbreakable Bonds, and Oral Biotech MFR CARIFREE. We appreciate all of the businesses that advertise in our newsletters.

You will notice we have a lot on our Calendar for 2025. Our next class is our Medical Emergencies on February 21st. We will have our annual business meeting during lunch, where we will discuss next year's officers, budget, and an update for our bylaws. If you are a member and are only coming for the luncheon, please email me and let me know. If you want to attend the business meeting remotely, let me know, and I will do my best to accommodate you.

This spring, we have two speakers, Dr. Bryan Trump in March and Dr. Greg Psaltis in April, scheduled to speak in

Nissa Newton  
Corvallis on a Thursday evening and in Eugene the following Friday. The classes will differ on both days, so feel free to come to both if you'd like.

In addition to our Spring and Fall socials, we will have a happy hour with goats in Monroe at a farm that also does Goat Yoga. So yes, we will not only be socializing with each other but also with goats. This should be a relaxing and fun experience with wine and appetizers. We will have a two-day event in Newport on the first weekend in August. On Friday, we will have a full day of CE with Dr. Timothy Bizba (brought in by GC), and on Saturday, we will have a fun social activities for dentists and their families. The details are still being planned, but it should be a fun place to come together to learn and play.

Our council is looking for council members. In order to accomodate those that may not live near the Eugene area, we will be conducting most of our meetings by Zoom, with only five meetings a year. Please let me know if you are interested. Council members help support our society, provide valuable insight, oversee operations, and help us make decisions regarding our events and activities. This is a great opportunity for new dentists to get valuable leadership experience.

**Little Duck's Continued from pg. 1**

children and also helps the practice keep up to date with technology. When asked about her favorite age to work with, she says she has a lot of fun working with children who are just able to sit in the dentist chair independently, "I have helped a lot of kids get through a lot of dental anxiety and so I like that age when you get to start giving them a good experience from the get-go instead of them having a bad experience, then you're trying to fix the trauma."

Little Duck's is currently looking for a receptionist and a hygienist to join their team.

**Member Spotlight: Dr. Matt Schapper, Focused on Family and Serving Others**

Dr. Matt Schapper is the first dentist in his family. He was looking for a career that would allow him to help serve others' needs. At first, he thought this could be medicine until he took Dr. Joseph Mirci's pre-dental class at the University of Utah. Dr. Schapper shadowed at his office and was a Teacher's Assistant for his class for a couple of years. After that, he went to Temple University School of Dentistry in Philadelphia. While at his General Practice Residency at the University of Utah Hospital, his brother Dane shadowed him a few times and pursued dentistry, going to Temple University as well. They practice together at Complete Dental Health LLC in Albany and Dental Health PC in Corvallis.

Since Dr. Schapper grew up in Springfield, he has plenty of family in Oregon and decided to start his career here with Dr. Kendell Wood for 12 years until he retired. After Dr. Wood Retired retired, Dr. Schapper's brother came to join the practices. The brothers have similar schooling and training and work well together in patient care and treatment. Dane has a background in Business and Accounting which helps them manage both locations utilizing the same systems to help both offices operate consistently. Most of the time the doctors are at different locations, but sometimes work together on Fridays when only one of their locations is open.

When asked what he likes best about working in the Corvallis/Albany area, Dr. Schapper responded that he enjoys seeing the diversity of patients: "Students from Oregon State to families and individuals who have grown up here their whole lives, or maybe transplants to Oregon. I enjoy getting to know my patients, what they are up to, and their interests overall. I think having a better understanding of who our patients are helps to provide care better tailored to their needs."

Dr. Schapper and his wife, Ashley, have four children: 13-year-old twins, a 9-year-old son, and a 5-year-old daughter. As a family, they go on camping trips and vacations to visit family here or in Utah. During summertime, they also try to take full advantage of outdoor activities, enjoying Oregon's beauty. Dr. Schapper looks forward to seeing if his children will be interested in dentistry when they are older; for now, they enjoy sports and music. In addition to family activities, Dr. Schapper enjoys golfing with friends and trains for triathlons.

**White Bird Dental Clinic Update**

We are excited to welcome Dr. Lake to our team! His presence will enhance the compassionate care we provide our patients. At White Bird Dental Clinic, we offer restorative, comprehensive, and hygienic dental care by appointment from Monday to Friday. We accept OHP, Trillium, PacificSource, and private dental insurance. For those uninsured, we offer a sliding scale fee based on income, ensuring that everyone has access to quality care. In addition, our emergency walk-in clinic operates on Mondays and Wednesdays, along with bi-weekly Fridays starting at 7:30 AM, ready to support individuals with current tooth pain. Referrals are available when necessary. Our dedicated interns are here to provide exceptional care while gaining invaluable clinical experience. We are deeply grateful for the support and donations from our local dentists, which empower us to continue offering affordable dental care to all. We take immense pride in the care we provide, not just for our patients, but for our community!

### A Blueprint for Success

Prepare to make 2025 an exceptional year! As a dental practice owner, setting clear production goals is crucial for driving growth and ensuring long-term success. Use these five simple steps to establish effective targets:

1. Define Clear Objectives: Identify specific, measurable goals such as increasing daily production by 15% or boosting hygiene appointments by 20%.
2. Analyze Current Data: Review your practice's historical performance to establish realistic benchmarks.
3. Set Achievable Targets: Break down annual goals into monthly and daily objectives to make them more manageable.
4. Involve Your Team: Engage staff in goal-setting discussions to foster commitment and accountability.
5. Monitor Progress Regularly: Implement a system to track performance and adjust as needed.

Requirements for Successful Goal Implementation

### Dental Office Management Corner with Janette Douglas

- Team Involvement: Share goals with your staff to foster participation
- Regular Reviews: Schedule monthly check-ins to assess progress
- Adjust and Adapt: Be flexible and refine your goals as needed

By setting and pursuing well-defined production goals, you'll create a road map for practice growth, motivate your team, and enhance patient care. Start today and watch your practice thrive!

**Dr. Sam Bae, DDS, MC**

Speaker sponsored by: Columbia Bank Healthcare Banking

Dr. Bae is a board-certified, fellowship-trained surgical specialist in oral, maxillofacial, and pediatric craniofacial surgery. After obtaining his dental degree at New York University, he continued his education at University of Michigan in Ann Arbor where he obtained his medical degree, general surgery internship, and residency in oral and maxillofacial surgery. Following residency, he completed fellowship training in pediatric cleft and craniofacial surgery at the El Paso Children's Hospital in Texas.

He is board-certified in both the United States and Canada and is a Diplomate of the American Board of Oral and Maxillofacial Surgery and a Fellow of the Royal College of Dentists of Canada. He is also a Diplomate of the National Dental Board of Anesthesiology. He currently serves as a Clinical Assistant Professor in the OHSU Department of Oral and Maxillofacial Surgery. In addition to practicing full scope of oral surgery, craniomaxillofacial trauma surgery, sleep surgery, and corrective jaw (orthognathic) surgery, Dr. Bae specializes in the treatment of facial, jaw, and skull deformities ranging from cleft lip and palate, craniosynostosis, and craniofacial disorders.

**Course Objectives**

- Assess your patient to identify those at increased risk for specific medical emergencies
- Learn what medications and equipment you will need at your disposal during an emergency
- Know when and how to use each drug and piece of equipment in your kit

Morning Snacks and Lunch Included.

CCDS is an ADA CERP recognized provider approved by the Oregon Dental Association. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. **Dr. Bryan Trump, D.D.S., M.S.**

Dr. Bryan Trump is a Board Certified Oral and maxillofacial Pathologist and full-time Associate Professor at The University of Utah School of Dentistry. Bryan grew up in a suburb of Salt Lake City, Utah. He attended Weber State University, where he earned a Bachelor of Science in Microbiology. His DDS is from Virginia Commonwealth University School of Dentistry, and he completed his Oral & Maxillofacial Pathology Residency as well as a Master's in Biomedical Sciences at Texas A&M University College of Dentistry. He has established a clinical referral center focused on oral medicine at the dental school and directs Utah's first and only oral pathology biopsy service. His laboratory serves dentists and physicians throughout the intermountain West. He enjoys educating and learning alongside dermatology, pathology and dental residents, as well as the dental and dental hygiene students.

**ORAL ULCERATIONS: WHAT IS EATING YOU? (2 CEs)**

**March 13, 2025**, 5:30 - 7:30 pm (dinner included)

Corvallis Elks Lodge #1413, 1400 NW 9th St  
Corvallis, OR 97330

Course Description: The presentation will cover acute, chronic and infectious oral ulcerations seen in dental offices. Proper terminology will be reviewed. Differential diagnoses, etiology, and treatments will be discussed. It is intended to be an interactive course involving problem-solving and critical thinking

Course Objectives:

- Learn and review current terminology used in oral pathology.
- Recognize the signs and symptoms of various acute, chronic and infectious oral ulcerations seen in the dental practice.
- Discuss different etiologies, treatments and their outcomes.

CCDS is an ADA CERP recognized provider approved by the Oregon Dental Association. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

**HANDS-ON BIOPSY PRINCIPLES (3CEs)**

**March 14, 2025**, 9 am - 12 pm (breakfast included)

Lane Community College, Bldg 19 Rm 103

Course Description: This presentation will apply clinical correlation to a variety of soft tissue pathology seen in dental practices. Appropriate documentation will be considered along with a review of current terminology used in oral pathology. Biopsy principles will be reviewed. The participant will learn some techniques that can help make obtaining a biopsy sample less stressful. Tips for how to submit a specimen and what to expect in a pathology report will also be discussed. This is intended to be an interactive course where our collective experiences can help each of us become a better member of the oral health care team.

Course Objectives:

- Review recommended timelines from initial observation to medical management vs surgical management.
- Learn biopsy principles to obtain the best possible outcomes for you and your patients.
- Discuss various biopsy techniques to obtain optimal diagnostic samples.
- Discuss the process of submitting a biopsy specimen to an oral pathology laboratory
